CE WPC Fluted Panel

2.2m/2.7m/2.9m Wood Plastic Composite Various Design Options To Choose From Fluted Wall Panel

Product Description:

WPC Fluted Panel is a kind of board made of wood plastic composite, which is made by combining wood fiber or wood flour and thermoplastic such as polyethylene, polypropylene and polyvinyl chloride. It has thickness range of 12mm to 30mm and width range of 100mm to 300mm, and it can be used for both indoor and outdoor decoration. It features waterproof layers board and fiber reinforced panel, which makes it highly resistant to moisture, corrosion and abrasion. Moreover, it also features a surface treatment of lamination, making it more durable and visually appealing.
