Product Description

Fluted wall cladding offers a remarkable combination of cost-effectiveness and low maintenance, creating a kind of "magic" in the world of interior and exterior design.

This type of wall cladding is an economical choice without compromising on quality or style. It provides an affordable solution for enhancing the appearance of your walls, whether in residential, commercial, or industrial settings.

The low maintenance aspect is a significant advantage. You won't need to spend excessive time and effort on upkeep. Fluted wall cladding is resistant to dirt, stains, and damage, and it can be easily cleaned with simple methods.

The fluted design adds texture and visual interest, giving your space a unique and modern look. It can transform plain walls into eye-catching features, enhancing the overall aesthetic appeal.

Whether for new construction or renovation projects, fluted wall cladding's cost-effectiveness and low maintenance nature make it a practical and attractive option that delivers long-lasting beauty and functionality with minimal hassle.

Applications:

HB-DECOR's WPC FLUTED PANEL is a wood-plastic composite panel made from a combination of recycled wood and plastic, with a special fluted pattern. It is available in a range of lengths, from 2.2m to 2.9m, and in a selection of thicknesses, from 12-30mm. The panel's surface can be finished with smooth, sanding, embossing and wood-grain textures. It is an ideal solution for both indoor and outdoor applications, and its minimum order quantity is 500m². This fluted wood-plastic board is perfect for creating a beautiful and unique space for any commercial or residential property. The fluted wood-plastic panel is perfect for use in wall cladding, ceilings, furniture, and other interior and exterior design elements. Its unique texture and elegant look will add a touch of sophistication to any space, making it a great choice for those looking for a stylish, yet durable, wood-plastic composite fluted panel.
