

Wooden Plastic WPC Fluted Panel UV Resistance Moisture Resistance

Our Product Introduction

For more products please visit us on hb-buildingmaterials.com

Basic Information

- Place of Origin: CHINA
- Brand Name: HB-DECOR
- Certification: MSDS,ISO,CE
- Model Number: WPC FLUTED PANEL
- Minimum Order Quantity: 3000SQM
- Price: USD4-10/M2
- Packaging Details: CARTON
- Delivery Time: 10days after receive deposit
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 40CONTAINERS PER MONTH

Product Specification

- Color: White
- Width: 150mm-300mm
- Application: Interior Wall Cladding
- Flexural Strength: 14Mpa
- Thickness: 6mm-24mm
- UV Resistance: Yes
- Fireproof: Yes
- Material: Wood Plastic Composite
- Features: UV Resistance Moisture Resistance
- Highlight: **Wooden Plastic WPC Fluted Panel, 300mm WPC Fluted Panel, 300mm WPC Wood Panel**

Product Description

The Wooden Plastic WPC Fluted Panel is a remarkable innovation in building materials. It combines the best of wood and plastic to offer a superior product.

One of its outstanding features is its UV resistance. This means that the panel can withstand prolonged exposure to the sun without fading or deteriorating. It maintains its color and appearance over time, making it suitable for both indoor and outdoor applications.

The moisture resistance property is another significant advantage. Whether in a humid climate or an area prone to moisture, this panel remains unaffected. It does not warp, swell, or develop mold, ensuring its durability and longevity.

The fluted design of the panel not only adds an aesthetic appeal but also enhances its strength and rigidity. It provides a unique look that can enhance the visual appeal of any space it is installed in.

This WPC fluted panel is easy to install and handle, reducing labor costs and installation time. It is also eco-friendly, as it makes use of recycled materials and is recyclable itself.

In conclusion, the Wooden Plastic WPC Fluted Panel with UV Resistance and Moisture Resistance is a reliable and attractive choice for a wide range of construction and decoration projects.

Features:

Product Name: **WPC Fluted Panel**

Composition: **Composite Plastic-Wood Fluted Panel, Mixture Wood-Plastic Fluted Panel, Wood-Plastic Composite Fluted Panel**

Application: **Interior Wall Cladding**

Fireproof: **Yes**

Length: **3000mm**

Width: **150mm-300mm**

UV Resistance: **Yes**

Technical Parameters:

Parameter	Value
Mildew Resistance	Yes
Length	3000mm
Flexural Strength	14Mpa
Waterproof	Yes
Surface	Fluted
Fireproof	Yes
Weight	5kg/m ² -7.5kg/m ²
Impact Resistance	Yes
Application	Interior Wall Cladding
Width	150mm-300mm

Applications:

HB-DECOR's WPC FLUTED PANEL is a composite Wood-Plastic Composite Fluted Panel that is made of a special blend of PVC and Wood-Plastic Composite materials. This Composite Plastic-Wood Fluted Panel offers superior UV Resistance, Fireproof, Mildew Resistance and tensile strength up to 7Mpa. It is perfect for a variety of applications and lengths can reach up to 3000mm.

This PVC Fluted Panel is a great choice for your next project as it is perfect for outdoor use as it is UV resistant, fireproof, and mildew resistant, and provides great tensile strength. It is easy to install and can be used in a variety of applications. Whether you are looking to add a modern, rustic, or contemporary look to your outdoor space, this WPC Fluted Panel is the perfect choice.

HB-DECOR's WPC FLUTED PANEL is the perfect choice for any outdoor space. With its superior UV Resistance, Fireproof, and Mildew Resistance it is perfect for both commercial and residential projects. Plus, with its unique blend of PVC and Wood-Plastic Composite

materials, you can be sure that your project looks great and lasts for years to come.

Customization:

HB-DECOR's WPC Fluted Panel provides customers with a wide range of custom services to meet their individual needs. Our WPC Fluted Panel is made of plastic-wood compound material, which is a composite of wooden and plastic materials. The thickness of our WPC Fluted Panel ranges from 6mm to 24mm, and the width is from 150mm to 300mm. It is suitable for interior wall cladding and offers excellent impact resistance. The color of the panel is mostly white. Besides, our Plastic-Wood Compound Fluted Panel, Composite Wooden-Plastic Fluted Panel and PVC Fluted Panel are also popular.

Support and Services:

WPC Fluted Panel Technical Support and Service

We provide technical support and services for our WPC Fluted Panels. We are committed to providing you with the highest level of customer service and support.

Our experienced staff is available to answer any questions you have about the product, installation, and maintenance. We also have a team of experienced engineers who can provide technical support and guidance on the best installation and maintenance methods for the product. We also provide a full warranty for all of our products.

We are constantly updating our product range to ensure that our customers are always receiving the best quality products and services available. We strive to provide a complete solution for all of your WPC Fluted Panel needs.
