Product Description

The Water-Resistant WPC Wall Panels are a superior choice for those seeking reliable and durable wall solutions. These panels boast several outstanding features.

Firstly, their water-resistant property ensures that they remain unaffected by moisture, making them suitable for various environments, including bathrooms and kitchens.

The ease of installation is another significant advantage. They can be quickly and effortlessly installed, saving you both time and effort.

What's more, these panels are designed to last for a long time. Their durability ensures that they maintain their quality and appearance over an extended period.

And not to forget, they come with a CE certificate, guaranteeing that they meet the strict quality and safety standards.

With the combination of water resistance, easy installation, long-lasting performance, and the CE certification, the Water-Resistant WPC Wall Panels are an ideal option for your wall covering needs.

Features:

Product Name: WPC Fluted Panel
Application: Interior Wall Cladding
Impact Resistance: Yes
Weight: 5kg/m²-7.5kg/m²
Waterproof: Yes
Surface: Fluted
Material: Compound Wood-Plastic
